I was asked to submit any anecdotes which I recall from our school days. After much thought, I realized many of these memories dealt with our awkward adolescence. Many of these stories could still be painful. Therefore, I have chosen another road which leads back into our past.

Remembering our past has brought many questions to mind. Hopefully, you will have the answers and be able to share the memories.

+ Do any of you remember arsis-thesis? Have you ever used this valuable information? Do you remember what it means?

+ Are there still Rogation Days? We never did see anything grow in the parking lot.

+ Is it a Church law that you must go to confession on Monday if you can't remember what Sunday's sermon was about?

+ Is it a mortal sin to do the "Twist" if this activity is performed only with your spouse?

+ Do you find it difficult to genuflect without the stimulus of a clap?

+ Have you taught your children the proper way to enter church? Do they know which blocks to walk on? I'm sure this is no easy task now that they have remodeled the Church.

+ Have you taught them ejaculations so they may gain indulgences, while avoiding the temptation to talk in line?
